- 2014 – SSC from Zilla Parishad Boys High School and having **83%,** Sircilla.

Technical Skills:

- **Frontend** – HTML, CSS, JavaScript and Angular 14

- **Backend** – C#, ASP.NET Core

- **Programming Languages** – C, C++, C#.Net, OOPS Concepts, ASP.Net, SQL, Python

- **Tools** – GitHub, Visual Studio 2022, Visual Studio Code, Doccono tool, Labelme tool, MS Word, MS EXCEL, MS Power Point

- **Operating Systems** – Windows 7, 10, 11

Communication Skills:

• I'm good at Analytical Skills, Logical, Mathematical and Problem solving.

• I'm a Quick Learner and Having Good Communication Skills with an Interpersonal and Representative Skills.

Project-1:

College Project: Filtering Instagram hashtags through Crowd Tagging and HITS algorithm.

Tools and Technologies: Python, SQL.

Description:

The tags–image pairs can be used to train automatic image annotation (AIA) systems in accordance with the learning by example paradigm. the application of a modified version of the well-known hyperlink induced topic search (HITS) algorithm, in a crowd tagging context, provides an effective and consistent way for finding pairs of Instagram images and hashtags, which lead to representative and noise-free training sets for content-based image retrieval.

Project-2: Portfolio Website.

Tools and Technologies: HTML, CSS, JavaScript and GitHub.

Description:

It's a Portfolio website of my personal details where I include all my thoughts and upcoming plans to create such projects like E-COMMERCE, SOCIAL MEDIA, FOOD DELIVERY and Personal Blog applications. here I'm implemented this Project with different Classes and Ids and Currently I have a plan to upgrade this project with bootstrap and Angular 14.

Project-3: Angular CRUD Operations and Backend C# and ASP.Net Core

Tools: Angular 14, HTML, CSS, JavaScript, TypeScript, GitHub, Visual Studio Code and Postman

Description:

• To Improve my knowledge in Angular I have created multiple of this type of projects

• I have created the data is taken manually from the Angular Components

• I have used the data which taken from the JSON file db.json to use Angular services to use get, put, post and delete methods

• I have connected to SQL Server through Visual Studio 2022 and their I have learned so much topics in C#

Hobbies

• Reading Books.

• Yoga and Meditation.

• Cooking and Listening Music

- Playing Cricket

- Browsing Internet and Watching YouTube.

Languages

Telugu	- Mother Tongue
English	- I can Read, Write and Speak
Hindi	- I can Read and Write

Strengths

- Self-confidence

- Willing to Learn Quickly with accuracy

Personal Details

Father's Name	- late. Bhasker Gujje
Mother's Name	- late. Laxmi Gujje
Date of Birth	- 30/06/1998
Marital Status	- Single
Sex	- Male
Nationality	- Indian
