Professional Summary

AI/ML Engineer with 2 years of experience in developing intelligent systems and data-driven solutions. Skilled in machine learning, computer vision, and natural language processing with a solid foundation in mathematics and Python programming. Proven expertise in data preprocessing, model training, and evaluation for real-world applications. Passionate about innovation, continuous learning, and delivering accurate AI models for production environments.

Technical Skills

Programming & Libraries: Python, TensorFlow, PyTorch, Scikit-learn, NumPy, Pandas, OpenCV, FastAPI
Machine Learning & Deep Learning: Supervised & Unsupervised Learning, CNNs, RNNs, Transformers, Transfer Learning
Natural Language Processing: spaCy, NLTK, Text Classification, Named Entity Recognition (NER), Sentiment Analysis
Data Preprocessing & Model Evaluation: Feature Engineering, Data Cleaning, Statistical Analysis, Performance Metrics, Hyperparameter Tuning
Version Control & Tools: Git, GitHub, Jupyter Notebook, Visual Studio Code
Soft & Analytical Skills: Problem Solving, Analytical Thinking, Research & Experimentation, Collaboration, Documentation

Professional Experience

Software Engineer (AI/ML) | Exceed Management Pvt. Ltd., Hyderabad | Oct 2022 – Present
- Designed and implemented AI-powered data annotation pipelines for text, image, and video datasets.
- Trained and optimized Facenet512, VGG-Face, and YOLOv11 models for CCTV-based facial recognition.
- Conducted data preprocessing and augmentation to improve dataset diversity and model accuracy.
- Integrated trained models with Python and FastAPI for real-time inference systems.
- Collaborated with cross-functional teams to ensure high-quality labeled datasets for ML training.
- Applied model validation and tuning techniques to enhance recognition accuracy and performance.

Projects

NGaze – CCTV-Based Facial Recognition System
- Developed a face recognition system using YOLOv11m for detection and Facenet512 for embedding generation.
- Achieved consistent identification performance across varied lighting, pose, and distance conditions.
- Enhanced real-time recognition using OpenCV preprocessing and model optimization.

Automated Resume Extraction & Annotation Tool
- Built a pipeline to download, convert, and extract resumes into .docx and .txt formats for annotation.
- Used spaCy and Pandas for entity tagging and preparing NER datasets.
- Accelerated text data preparation for machine learning model training and evaluation.

Certifications

• Machine Learning Foundations: Calculus – LinkedIn (Issued Sep 2025)
• Machine Learning Foundations: Linear Algebra – LinkedIn (Issued Sep 2025)
• Machine Learning Foundations: Probability – LinkedIn (Issued Sep 2025)
• Artificial Intelligence Foundations: Machine Learning – LinkedIn (Issued Aug 2025)
• AI for Techies – United Latino Students Association (Issued Apr 2025)

Education

Master of Computer Applications (MCA) – Kakatiya University, Warangal
Bachelor of Science (B.Sc) – Vivekananda Degree College, Sircilla

Problem-Solving & Analytical Skills

• Strong analytical mindset for understanding ML model metrics and improving performance.
• Experienced in debugging and optimizing AI pipelines for accuracy and speed.
• Skilled in identifying dataset biases and applying corrective preprocessing techniques.
• Demonstrates logical reasoning and structured thinking for complex AI problems.

Interests

 Reading Telugu Literature & Spiritual Texts | Exploring Temples & Historic Places | Experimenting with Deep Learning Models | Writing Poems & Quotes

Personal Information

Date of Birth: 30 June 1998
Marital Status: Single
Languages Known: English, Telugu, Hindi
Location Preference: Hyderabad / Bangalore / Remote
Notice Period: Immediate / Negotiable
